Correction to

Gene expression profiling identifies FYN as an important molecule in tamoxifen resistance and a predictor of early recurrence in patients treated with endocrine therapy (Oncogene, (2015), 34, 15, (1919-1927), 10.1038/onc.2014.138)

Correction to: *Oncogene* <https://doi.org/10.1038/onc.2014.138>; published online 2 June 2014.

Since the online publication of the above article, the authors have noted errors in subfigures 1c and 3b. Therefore, new images of the original immunocytochemistry stainings have been obtained for Fig. 1c, and the Western blots for siRNA-mediated *FYN* knockdown in Fig. 3b were repeated. The amended versions of Figs. 1c and 3b are now shown below. The conclusions of this paper are not affected, and the authors sincerely apologize for these errors.
